Contura 500 Style™

New!

Created for your lifestyle

## New shapes, clean lines

Contura 500 Style is a development of our most popular models in the 500 series. The lines are cleaner and the functions have been improved. The glass door gives a light, modern appearance, at the same time that the clean lines of the design allow the stove to blend into your home, whatever style you prefer.

On the Contura 500 Style the top is thinner and the damper and handle are more integrated into the front of the stove.

With Contura you can always select extra functions. You can choose between a fan to give an extra kick to the heat or a hot plate to make maximum use of the fire.

### Generous sidelights and handles that don't get hot

Contura 500 Style has generous sidelights that let you see the flames from all angles of the room. You can also mount the stove on a pillar to raise the fire. It suits your style more of course you can choose Contura 500 Style without sidelights.

One new feature that we are sure you will appreciate is that you can open the door without a glove because the handles do not get hot.

## A stove for every style

**Timeless design:** blends into your favourite environment

**See the fire through the large areas of clean glass:** efficient combustion technology minimises soot build-up

**Options:** turntable, fan, hotplate

**Better function:** longer, more integrated handles that don't get hot

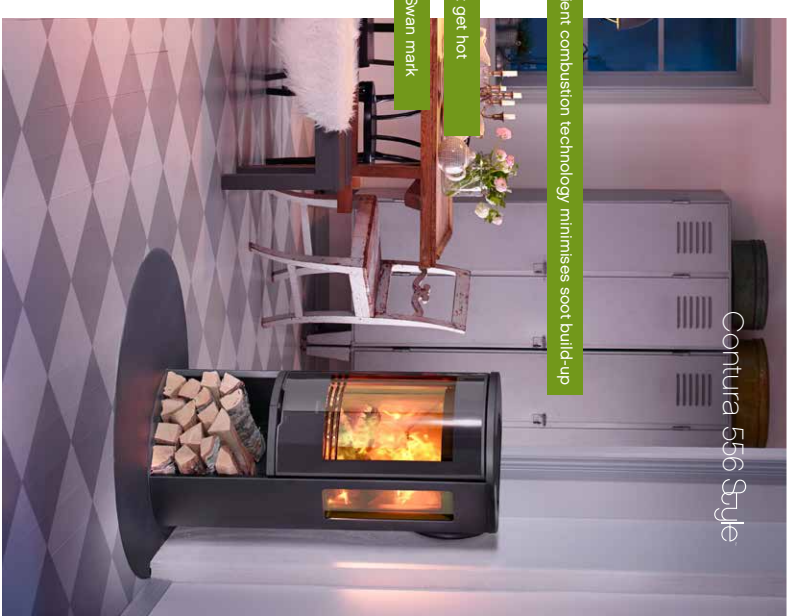

**Most resource-efficient:** environmentally marked with the Swan mark

### Clean burning fires producing world-class natural heat

Burning logs is natural and a stove from Contura is kind to the environment. It is Swan marked, which means that it is CO<sub>2</sub> neutral.

One of the world's most effective combustion technologies, Clean Burning, leads the market and sets the industry standard. The technology gives a clean flame and keeps the glass clear of soot.

# Which is your style?

With Style our most popular models in the 500 range get cleaner lines and several improved functions. The top is thinner, and the damper and handle are more integrated but still have a clear position in the front of the stove. In addition the handles can be gripped even when the stove is hot.

Contura Style is created for your lifestyle and easily blends into your home. Choose from a cast iron, soapstone or glass top. Here you can get an overview of all the models and accessories.

Contura is a Swedish made quality product. When you buy one of our fireplaces you always get well thought out design and a large range of choice of design, material, heat storage and accessories. The combustion technology is among the market's most efficient in all models and our Clean Burning system keeps the glass clean and the fire visible better than any others. Most of our models are Swan labelled and we always give a 5 year warranty.
